Time Management for extracurricular and outreach activities is a major challenge for students in their routine academic schedule. They find it hard to take off time for the Additional activities. Not many students prioritize social work. Not all students whole heartedly participate in extension and outreach activities. The faculty members take great efforts to motivate students and involve them in activities through coordination between students, faculty and administrative staff, things are being managed. However students express satisfaction after attending these programmes.

Library for Community

Goal:

- To promote lifelong learning and enhance Literacy.
- To foster social interaction and provide accessible resources.
- To preserve and share cultural heritage.
- To encourage physical wellness and combat loneliness and isolation.
- To bridge generational gap.

The concept:

To encourage reading for all age groups libraries play a vital role in supporting senior citizens by providing a welcoming space for learning, connection, and personal growth. As the aging population continues to grow, it is crucial to develop initiatives that address their unique needs and interests. Library programs for seniors can promote lifelong learning through educational workshops, enhance digital literacy by teaching essential technology skills, and foster social interaction through book clubs and group activities. Additionally, libraries can support mental health and well-being by offering mindfulness sessions, creative outlets, and resources on aging gracefully. Tailored collections, such as large-print books and audiobooks, coupled with accessibility features, ensure that seniors can fully engage with library services. By creating opportunities for seniors to share their stories, connect with others, and participate in intergenerational programs, libraries can play a transformative role in enriching the lives of older adults and combating social isolation.
