## **Leveraging AI for Research Work**

**(15<sup>th</sup> February 2025)**

**About Seminar:** With the growing use of smart phones and other technologies, AI has become a part of our daily life. It is well known, that Artificial Intelligence (AI) is undergoing a revolution. It is gradually taking over the academic landscape as the technological world expands and changes. AI has developed into a powerful tool that Academics can exploit for their research, writing, and cooperation in recent years. AI can speed up the writing and research processes, improve teamwork, and provide fresh perspectives for the academic world. It is obvious that AI has the power to fundamentally change the way Academics & research, publish papers, and cooperate and their ability to think, teach, and learn. This seminar is a step forward in the direction of exploring how AI can be leveraged for research work.
